PRESS RELEASE

Easterseals Goodwill North Dakota Launches New Home Pickup Service **GIVING BACK JUST GOT EASIER: A More Convenient Way to Donate AND Change Lives**

Mandan, N.D. — After hearing from donors who wanted a more convenient way to give, Easterseals Goodwill North Dakota (ESGWND) is launching a new home donation pickup service that makes donating furniture, household goods, and bulk items easier than ever. The service will initially launch in Bismarck and Fargo on June 22, 2026, with additional locations expected to follow statewide. Every donation collected through this service will support ESGWND programs that create opportunities for independence, inclusion, and employment throughout North Dakota.

This fee-based service is made possible by a partnership between ESGWND and ReSupply, a veteran-founded logistics technology platform. ReSupply's licensed and insured haulers provide pickup services directly from donors' homes, including heavy lifting, disassembly, and large-item removal. Most pickups can be scheduled within 24-48 hours, providing a hassle-free solution for donors who may not have the time, transportation, or ability to bring larger items to a donation center. ReSupply specializes in handling donations of all sizes and conditions while helping keep usable items out of landfills. Pickup fees are quoted in advance based on the size and scope of the donation and help cover transportation and hauling costs (such as insurance and gas) incurred by third-party haulers.

"Every donation has the power to create opportunity," said Dr. Mary Van Haneghan, President and CEO of ESGWND. "Our donors told us they wanted a simpler, more convenient way to give. This new service removes barriers and makes it easier for people to support our mission while making a difference in their communities."

"The unused item in an attic, basement, or garage can transform lives," said Paul Tocci, Founder and CEO of ReSupply. "With ReSupply, residents have a convenient option to free up space at home, keep items out of the landfill, and support ESGWND and its mission to provide equal opportunities for children, adults, and families. It has never been easier to donate."

Through ReSupply, donors can schedule pickups for furniture and large-item donations, estate or home cleanouts, and bulk donations. Pickup of smaller donations (such as bags of clothing or boxes of housewares) can be arranged through ReSupply's Courier Service.

Designed to make donating easier while maximizing community impact, the service offers:

- **Next-Day Pickup:** Donors can schedule a pickup within 24-48 hours by visiting ESGWND's website and clicking the "Schedule a Pickup" button or by calling **(701) 575-7484**. Once donors submit a few details about their items, ReSupply provides a fee quote and confirms the pickup time.
- **White-Glove Service:** ReSupply removes items from anywhere in the home, including upper floors, oversized furniture, and items requiring disassembly.

PRESS RELEASE

- **Donations Delivered:** Once pickup is complete, donations will be delivered to ESGWND's local Goodwill retail store, and donors will receive a digital tax receipt for the items that were donated. Revenue generated through donated goods helps fund ESGWND programs and services that create opportunities for independence, inclusion, and employment throughout the region.

By donating to ESGWND through ReSupply, donors:

- **Support the community.** Making pickup more convenient helps to increase the number of goods available at local Goodwill stores at prices well below retail value. Revenue from donated goods helps fund education, training, employment, and support services that strengthen communities across North Dakota.
- **Support the environment.** Reusing or repurposing an item is the best option for the planet, diverting items from landfills. ReSupply and ESGWND are working to multiply this impact: items that cannot be accepted by Goodwill may be redirected to other nonprofit partners or responsibly recycled whenever possible.
- **Support local businesses.** ReSupply partners with local hauling companies, creating additional business opportunities while helping connect donations with Goodwill.
- **Support veterans.** Through career opportunities, internships, and skills training, ReSupply helps active-duty military personnel transition into civilian life.

"Our donors asked for a more convenient way to give, and we listened," said Dr. Van Haneghan. "This partnership is about making generosity easier. When giving is easier, more people donate, more items find a second life, and more resources become available to support the individuals and families we serve. That's a win for our donors, our communities, and our mission."
